There's been a lot of discussion about the Career Program being dead – definitely not the case! It's alive and well and we're striving to make it better than ever! I'm very excited about our new website…I believe it will more effectively communicate the many educational opportunities that are available to our real estate community. This handbook is an excellent tool – use it to broaden your functional base, but also remember to take advantage of every opportunity to stretch and grow to your full potential.

The Career Program covers the 1170/1171 from the GS 5 level to the SES level. This site is a guide to get you from one level to another. However, it is still up to you to travel the path. We're in the early stages of workforce development and our goal is to expand the program to include other series as well (program analysts, cartographers, and attorneys etc.).

QUESTIONS?
